

AMENDMENT TO THE CLAIMS:

The following claim set replaces all prior versions, and listings, of claims in the application:

1. (currently amended) Thermoplastic composition comprising (a) an aromatic polycarbonate ~~and/or a polyester~~ or a blend of aromatic polycarbonate and polyester, in which the polycarbonate forms the continuous phase, and (b) a mould release agent, ~~wherein characterised in that~~ the composition comprises 0.01-3 mass% of a mould release agent that contains:
(b1) a fatty acid ester of an aliphatic polyol having 2-6 hydroxy groups and an aliphatic C₁₀-C₃₆ carboxylic acid; and
(b2) a saturated alpha-olefin oligomer of at least one C₆-C₁₈ alpha-olefin; and wherein
~~with a mass ratio of~~ components (b1) and (b2) are present in a mass ratio of (b1) to (b2) of from 1/9 to 9/1 1/3 to 3/1.
2. (original) Thermoplastic composition according to claim 1, wherein (a) is bisphenol A polycarbonate.
3. (previously presented) Thermoplastic composition according to claim 1, wherein the polyol in component (b1) has 3-4 hydroxy groups.
4. (previously presented) Thermoplastic composition according to claim 1, wherein the carboxylic acid in component (b1) is a C₁₆-C₂₂ fatty acid.
5. (previously presented) Thermoplastic composition according to claim 1, wherein component (b 1) comprises pentaerythritol tetrastearate.
6. (previously presented) Thermoplastic composition according to claim 1, wherein component (b2) has a molar mass of about 400-800 g/mol.

7. (previously presented) Thermoplastic composition according to claim 1, wherein component (b2) is an oligomer of a C₈-C₁₂ poly-alpha-olefin.
8. (previously presented) Thermoplastic composition according to claim 1, wherein component (b2) is an oligomer of a C₁₀ poly-alpha-olefin.
9. (canceled)
10. (previously presented) Thermoplastic composition according to claim 1, wherein the amount of mould release agent (b) is about 0.25-0.75 mass%.
11. (currently amended) An injection molded article comprising ~~Use of the thermoplastic composition according to claim 1 for injection moulding of articles.~~
12. (previously presented) Moulded articles made from the thermoplastic composition according to claim 1.
13. (previously presented) A method for making an injection molded article comprising injection molding a thermoplastic composition as set forth in claim 1.
